

# Make a dog AGILITY COURSE

## Things you will need to make an agility course for your dog

Agility is great exercise for your dog's body and brain, and it teaches them that listening to you can be fun!

1. Lay your broom across the two baskets to create a jump.
2. Place the flower pots/buckets in a line to create a 'weave'.
3. Place the box so that both ends are open, to create a tunnel.
4. Place door mat or towel on ground to create a 'sit and stay' station.
5. Stand the table or chair in space for your dog to run under.
