

Make a cat DANGLY TOY

**Things you will need
to make a dangly toy
for your cat**

Two socks

Shoelace

Cats are natural predators who love to chase, hunt and pounce!

1. Lay one sock on top of the other.
2. Fold both socks in half.
3. Fold the top of one sock back over both, creating a ball.
4. Tie a shoelace around the sock ball, leaving the ends dangling.

Daily playtime keeps your cat fit and healthy, as well as being a fun way to spend time with your furry friend!
