

# Make a cat SPIDER TOY

Things you will need  
to make a spider toy  
for your cat

Wool

4 x pipe  
cleaners

Cats are natural predators  
who love to chase, hunt  
and pounce!

1. Hold your pipe cleaners together and tie your piece of wool around them.
2. Wind the wool around the pipe cleaners until you have a good size 'spider body'.
3. Thread the end of the wool through the last loop.
4. Fold out the pipe cleaners to give your spider 'legs'.

Watch the film  
and see whether Coco will  
catch the toy...
